

## Types of Screen Mesh

Comes with standard mesh.  
**\$50 extra per screen FOR MESH UPGRADES**

**Standard Mesh:** The most commonly used window and door screening for new and replacement door and window screens.

**Pet Screen:** Got pets? Get Pet Screen. Thicker mesh helps resist scratching from cats or dogs

**Insect Screen:** A fine mesh screen material that helps protect against no-see-um, gnats, and other tiny insects.

**Solar Screen:** Blocks radiant energy from getting into your home. Can lower your energy bill up to 30%.

Sliding screen doors are one of the most popular assets to any home with sliding glass doors, patios and pool decks. Our beautifully crafted sliding screen doors are built to last with high grade extruded aluminum, come with a limited lifetime warranty on the frame and are proudly crafted in the U.S.A. Our custom sliding screen doors come in 3 colors (**white, bronze, and mill**) and we offer different types of screen mesh to meet your needs.
